THE ECOSEEKERS™ PROUDLY PRESENT:

The Land of Curiosities

ADVENTURES IN YELLOWSTONE, 1871-1872

BY *Deanna Neil*

Welcome to the first tale in a series of eco-novels for kids (and adults) with special real history sections!

Join the Clifton family as they descend into Yellowstone the year that it is declared the world’s first national park. Encounter bison, meet prospectors, travel with railroad men, and run into the Bannock tribe. In their first adventure, James and Alice Clifton must ultimately learn to protect each other and the environment as they uncover the evil plot of Billy “Bloody” Knuckles. Through James (age 12) and Alice (age 9), you will experience a page-turning adventure while learning important environmental lessons and history.

The Land of Curiosities is the first book in a collection of stories about defining events and themes in the history of environmentalism as told through the experiences of courageous young fictional characters. The book was thoroughly researched, and is inspired by real events and places. This highly-acclaimed book includes a 16-page real history section. It is for ages 8 and up (and loved by adults too).

The Land of Curiosities is now available at select Whole Foods Markets, various retailers, and throughout Yellowstone National Park, Teton National Park and the gateway communities.

MAJOR THEMES EXPLORED

- Emergence of the contemporary environmental movement
- National parks & conservation
- The massive slaughter of the American bison (from 30+ million to 100)
- Religion/ spirituality and nature
- Business interests and environmental protection
- Relations between American-Indians, the settlers, and U.S. government

ABOUT THE ECOSEEKERS™

We are an eco-enterprise that connects kids with nature and environmentalism. Created by a brother-sister team, our goal is to achieve the level of success of American Girl and Harry Potter, but for nature and the environment. We are an independent publishing house and more.

The EcoSeekers™ is committed to finding practical, eco-responsible solutions to fulfill its mission. All books are printed on 50% post-consumer, chlorine and acid free recycled paper using soy-based ink, and the company's website and email are powered exclusively by solar electricity.
